London Global Emergency Medicine

To Whom It May Concern,

Subject: Confirmation of Core Emergency Medicine Ultrasound Training for Dr. Mukhtiar Ahmed Pathan

This letter confirms that Dr. Mukhtiar Ahmed Pathan successfully completed comprehensive theoretical and practical training in Core Emergency Medicine Ultrasound as part of the Global Emergency Medicine (GEM) – CCP Emergency Medicine Programme.

The training was delivered by leading NHS UK consultants, including Dr. Syed Ali Ahmed (Ultrasound Lead), Dr. Michael Traur, and Dr. Ehsan Riaz. The curriculum covered the critical role of point-of-care ultrasound (PoCUS) in the emergency setting, encompassing the following core applications:

Focused Assessment with Sonography in Trauma (FAST/E-FAST): Detection of free fluid and evaluation for life-threatening conditions.

Cardiac Ultrasound: Assessment of cardiac activity, pericardial effusion, and global cardiac function.

Lung & Pleural Ultrasound: Identification of pneumothorax, pulmonary edema, pleural effusions, and consolidation (e.g., pneumonia).

Protocol-Driven Management: Integration of ultrasound findings into management protocols for sepsis, septic shock, and respiratory distress.

Soft Tissue & Procedural Guidance: Localization of foreign bodies in soft tissue and ophthalmological contexts, and ultrasound-guided procedures including vascular access (e.g., internal jugular vein cannulation) and fascial plane blocks.

Under direct consultant supervision, Dr. Mukhtiar Ahmed Pathan demonstrated excellent practical competency by performing the above ultrasound scans on mannequins in a simulated environment. He has acquired a solid foundation in the application of PoCUS for emergency diagnosis and intervention.

This training provides Dr. Mukhtiar Ahmed Pathan with the essential skills to utilize ultrasound in clinical practice, with a clear pathway for further development and expansion of his expertise in this domain.

Sincerely,

Ashfaque A Sorathia **ASHFAQUE A SORATHIA** MBBS MRCP MRCEM MRCPCH FRCEM EBEEM DGM LGEM Director Consultant NHS UK	Naila Ashfaque Sorathia **NAILA ASHFAQUE SORATHIA** Programme Director London Global Emergency Medicine (LGEM) Consultant NHS UK

16. Dr Muhammad Imran (MRCP, FRCR) – Consultant Radiologist, NHS UK. Dr Imran was invited as a guest faculty member to deliver a five-hour lecture on CT scan and chest X-ray interpretation. The radiology workshop included hundreds of clinical presentations, a variety of X-rays and CT scans (CT of the brain, CT of the chest), and how to diagnose various acute respiratory conditions including massive pulmonary embolism, haematoma, brain tumours, various lesions, and fractures. This session gave Dr. Mukhtiar Ahmed Pathan a comprehensive understanding of the role of CT interpretation by an EM physician.

17. Dr Saqib Ghani – Consultant Interventional Cardiologist, NHS UK (MRCP, FRCP). Dr. Mukhtiar Ahmed Pathan attended five hours of ECG teaching from Dr Saqib Ghani, who is currently working as an interventional cardiologist in the NHS UK. He covered 70+ ECG scenarios which may be encountered in emergency clinical practice. He correctly explained the academic background, presentations, and management of all those conditions in the acute setting. This lecture covered various cardiological presentations including arrhythmias, heart disease, conduction delays, underlying accessory pathways, Brugada syndrome, and almost all acute cardiological presentations which show changes on the ECG, and how a doctor should manage them.

18. Dr Sreedhar Perumal – Consultant in Emergency Medicine & Paediatric Emergency Medicine, NHS UK; Lead Paediatric EM Consultant (FRCEM, EBEEM, DCH). As the lead clinical lead for paediatrics in the emergency department, Dr Sreedhar conducted teaching sessions on paediatric stridor. The session included written feedback, and Dr. Mukhtiar Ahmed Pathan now has an understanding of the various potential causes of stridor and its management.

19. Dr Rabiya Yousuf – Clinical Lead Consultant, NHS UK; Paediatric Emergency Medicine (FRCEM). As the clinical lead for adult and paediatric emergency medicine in the NHS UK, Dr Yousuf conducted numerous teaching sessions for all trainees, which included paediatric emergency medicine resuscitation, the limping child, minor injuries, and head injury in a child. These topics were very well received and have contributed immensely to the professional growth of Dr. Mukhtiar Ahmed Pathan, helping him understand paediatric presentations and their management.

20. Dr Yasir Baig – Consultant Nephrologist, NHS UK (MRCP). As a consultant nephrologist practising in the United Kingdom, Dr Yasir Baig was invited to conduct various sessions on renal pathology, comprehensively covering acute kidney injury, chronic kidney disease, renal failure, and renal replacement therapy in the acute setting. Having attended Dr Baig's lectures, Dr. Mukhtiar Ahmed Pathan gained a comprehensive understanding of renal pathologies and how to deal with them in the emergency department as the first physician. He actively participated and completed all the coursework related to the session.

21. Dr Faisal Mehmood Cheema (MRCEM, FRCEM, EBEEM) – Consultant in Emergency Medicine, Bahrain. As an eminent senior consultant practising in Bahrain, Dr Faisal Cheema conducted various sessions on emergency medicine teaching. His main area of expertise was resuscitation, covering all ALS and trauma algorithms in detail. He also covered environmental pathology, environmental emergencies, and official injuries and trauma alongside clinical acute teaching. He also conducted various sessions on MRCEM SBA teaching, which comprehensively covered the entire MRCEM SBA as per UK college guidelines. Dr. Mukhtiar Ahmed Pathan actively attended all the above lectures of Dr Faisal and submitted all self-reflective feedback and CBD feedback.

22. Dr Abdul Rehman Al Durra – Consultant in Adult & Paediatric Emergency Medicine, NHS UK. Dr Abdul was invited as a faculty member consultant to teach emergency medicine topics. He conducted a session on major crashes and supervision. Dr Rahman is working in Oxford and was training in South Wales, and is currently practising emergency medicine. The session was very well received by all trainees.

23. Dr Amini Abdul Qayoume (MBBS, FCPS, MRCS (Ass), MRCEM) – General Surgeon, Lieutenant Commander, Pakistan Navy, Qatar. Dr Amini is a consultant general surgeon who conducted a session on surgical pathology, including the management of abdominal pain, case discussions on acute surgical problems, and teaching on chest drain insertion, open chest training, and surgical airways. The procedure roadshow sessions were fully attended by Dr. Mukhtiar Ahmed Pathan, with hands-on supervised practice with Dr Amini in a realistic environment on real mannequins. The session conduc[redacted]n develop the surgical skills required for an emergency physician, including minor surgical procedures and some life saving

covered the MRCEM curriculum. His main topics included minor injuries, ELS, ATLS, ALS, and practical skills sessions, including the 100 emergency medicine procedure workshop.

5. Dr Mir Saaduddin Ahmed (FRCEM) – Consultant in Emergency Medicine, NHS UK. Dr Mir is an expert in emergency medicine with a special interest in trauma. He is an ATLS programme director. His topics included paediatric emergency medicine, acute neurological deficits, strokes, evidence-based medicine, and a wide variety of topics related to adult and paediatric emergency medicine. He also used simulated paediatric scenarios in his teaching.

6. Dr Michael Traur (FRCEM) – Consultant in Emergency Medicine, NHS London. Dr Michael is currently working as a consultant in London and is a master trainer for ultrasound in the UK. He also conducted various teaching sessions related to emergency and acute medicine, including theological emergencies, high-risk protocols, sepsis, shortness of breath, abdominal pain, syncope, collapse, and psychological deficits. A series of lectures over two years contributed immensely towards the progression of Dr. Mukhtiar Ahmed Pathan.

7. Dr Ehsan Riaz (FRCEM) – Consultant in Emergency Medicine, NHS London. Also an eminent EM consultant working in NHS London, he conducted a series of lectures related to medicine which included bleeding, sexually transmitted diseases, and traumatic brain injuries. He conducted sessions on injuries and lower limb injuries, which gave a comprehensive overview to Dr. Mukhtiar Ahmed Pathan on how to manage those injuries as an EM physician. Dr Riaz also conducted various OSCE sessions which included critical communication skills.

8. Dr Nahal Raza (MRCP) – ST6 Cardiology Registrar, NHS UK. Dr Raza is a senior cardiology registrar currently practising in the NHS UK. She delivered topics in acute medicine and cardiology, conducting numerous lectures on acute cardiology presentations such as heart blocks, congestive heart failure, heart diseases, sepsis, anaemia, hypertensive emergencies, and clinical cautions. Multiple choice questions and the entire Royal College of Physicians curriculum for acute medicine were covered, which gave Dr. Mukhtiar Ahmed Pathan a thorough understanding of how acute medicine presentations are managed by a physician.

9. Dr Nadeem Tehami (MRCP, FRCP) – Consultant Gastroenterologist, NHS UK. Dr Tehami is another eminent consultant working in the NHS as a gastroenterologist. He conducted lectures on acute clinical case discussions and communication skills related to acute gastroenterological problems, including sessions on GI bleeding and acute infectious diseases. These were attended by Dr. Mukhtiar Ahmed Pathan, and we are sure that those lectures have given Dr. Mukhtiar Ahmed Pathan a comprehensive insight into how to manage gastroenterological conditions as an emergency physician.

10. Dr Syed Anjum Gardezi – Consultant Gastroenterologist, NHS UK. Dr Gardezi is a very senior gastroenterological consultant in the NHS UK with experience in managing gastroenterological conditions. He delivered numerous lectures for trainers, including prominent lectures on acute liver failure and chronic liver disease, giving Dr. Mukhtiar Ahmed Pathan insight into managing various gastroenterological conditions.

11. Dr Irfanullah Khan (FRCEM) – Consultant in Emergency Medicine, NHS UK. Dr Irfanullah is currently working as a consultant in emergency medicine in London. He conducted teaching sessions on child safeguarding, adult safeguarding, and the role of petition, as well as lectures on toxicology and paracetamol poisoning, which were attended by Dr. Mukhtiar Ahmed Pathan.

12. Dr Jacob Baby – Consultant in Respiratory & Chest Medicine, NHS UK; MRCP PACES Examiner. Dr. Mukhtiar Ahmed Pathan attended the lectures of Dr Jacob, who is a consultant in respiratory medicine in the NHS UK. Dr Jacob conducted sessions on asthma, COPD, tumours, acute respiratory conditions, haemoptysis, interstitial lung disease, and pneumonia. We confirm that Dr. Mukhtiar Ahmed Pathan attended all those lectures and actively participated, providing timely feedback and engaging in case-based questions.

13. Dr Syed Wasib (MR[redacted]est Medicine, NHS UK. As a consultant in respiratory medicine in the NHS UK, he conducted numerous teaching sessions and

To Whom It May Concern,

Subject: LGEM International Tutors & Trainers Who Contributed Towards the professional growth, Teaching & Training Of Trainee Dr. Mukhtiar Ahmed Pathan

This letter confirms that during his two-year participation in the London Global Emergency Medicine (LGEM) – CCP Emergency Medicine (CCP-EM) MRCEM Programme by Dr. Mukhtiar Ahmed Pathan. received structured teaching and supervision from more than 25 distinguished panel of senior NHS UK and international consultants. The instruction covered a comprehensive curriculum designed to foster his professional growth in Emergency Medicine. The contributing faculty members and topics they taught are listed below.

1. Dr Ashfaque Sorathia (MBBS, MRCP, MRCEM, MRCPCH, FRCEM, EBEEM, DGM) – Programme Director & Supervisor, Consultant in Emergency Medicine, Acute Medicine & Geriatric Medicine, NHS UK. As a supervisor, programme director, and trainer, Dr Ashfaque closely monitored the professional growth of Dr. Mukhtiar Ahmed Pathan through weekly online meetings and constant supervision. He covered a wide variety of topics from adult medicine to emergency medicine, including primary, intermediate, and emergency medicine procedure workshops, along with academic teaching. Dr Ashfaque particularly emphasised clinical communication, ethics, and complex scenarios.

2. Dr Naila Ashfaque Sorathia – Programme Director & Supervisor (MBBS, MRCP, MRCEM, FRCEM, DGM), Consultant Physician, NHS UK; former Clinical Lead for Acute Frailty & Geriatrics, BHRUT NHS Trust. As the trainer and supervisor of Dr. Mukhtiar Ahmed Pathan, Dr Naila covered a wide variety of topics related to medicine, including MRCP clinical case discussions and a wide range of acute medicine topics, with major contributions from the MRCEM SBA and curriculum based on UK college guidelines.

3. Dr Shumontha Dev (FRCEM) – Consultant in Emergency Medicine, NHS London; Master Trainer & Programme Director for the LGEM Advanced EM FRCEM Programme. As a master trainer and lead faculty member, Dr Shumontha conducted numerous teaching sessions on emergency medicine teaching and training. He covered a wide range of topics and emergency situations one may encounter, including sepsis, back pain, headache, leadership skills, trauma management, and a 100 emergency medicine procedure workshop. Beyond the ER department, Dr Shumontha also covered a wide variety of topics as a leader, including quality improvement projects, audit, and developing juniors through training.

4. Dr Syed Ali Ahmed (FRCEM) – Consultant in Emergency Medicine, NHS UK; Emergency Medicine Ultrasound Lead at an NHS Hospital Trust. Dr Ali Ahmed, a practising consultant in the NHS UK, is the clinical lead for ultrasound. He emphasised teaching and the application of ultrasound in medicine, focusing on sound clinical rules for emergency situations and anaesthesia. He also

covered the MRCEM curriculum. His main topics included minor injuries, ELS, ATLS, ALS, and practical skills sessions, including the 100 emergency medicine procedure workshop.

5. Dr Mir Saaduddin Ahmed (FRCEM) – Consultant in Emergency Medicine, NHS UK. Dr Mir is an expert in emergency medicine with a special interest in trauma. He is an ATLS programme director. His topics included paediatric emergency medicine, acute neurological deficits, strokes, evidence-based medicine, and a wide variety of topics related to adult and paediatric emergency medicine. He also used simulated paediatric scenarios in his teaching.

6. Dr Michael Traur (FRCEM) – Consultant in Emergency Medicine, NHS London. Dr Michael is currently working as a consultant in London and is a master trainer for ultrasound in the UK. He also conducted various teaching sessions related to emergency and acute medicine, including theological emergencies, high-risk protocols, sepsis, shortness of breath, abdominal pain, syncope, collapse, and psychological deficits. A series of lectures over two years contributed immensely towards the progression of Dr. Mukhtiar Ahmed Pathan.

7. Dr Ehsan Riaz (FRCEM) – Consultant in Emergency Medicine, NHS London. Also an eminent EM consultant working in NHS London, he conducted a series of lectures related to medicine which included bleeding, sexually transmitted diseases, and traumatic brain injuries. He conducted

To Whom It May Concern,

Subject: LGEM Core Emergency Medicine Procedures & Competencies Letter of Completion

This letter confirms the successful completion of Dr. Mukhtiar Ahmed Pathan in the two-year LGEM CCP EM Programme in Emergency Medicine.

During this period, Dr. Mukhtiar Ahmed Pathan completed comprehensive training in core Emergency Medicine procedures as part of a structured series of procedure workshops. Under supervision, he performed over 100 emergency medicine procedures in a controlled, simulated learning environment.

Emergency Medicine Procedures Trained and Demonstrated

Dr. Mukhtiar Ahmed Pathan received theoretical instruction and hands-on practical training in the following domains:

- Airway & Resuscitation Skills
- Basic and Advanced Life Support
- Airway management techniques
- Intraosseous access insertion
- Vascular & Cardiovascular Procedures
- Central and peripheral venous access
- Ultrasound-guided intravenous cannulation
- Chemical and electrical cardioversion
- Transcutaneous pacing
- Management of arrhythmias
- Trauma & Musculoskeletal Procedures
- Joint manipulation and relocation for common dislocations
- Splinting techniques
- Fracture management
- String technique for joint reduction
- Regional Anaesthesia & Nerve Blocks
- Ring block
- Haematoma block
- Wrist fracture manipulation
- Various regional nerve blocks
- Fascia iliaca block
- ENT, Ophthalmology & Foreign Body Removal
- Removal of foreign bodies from the ear, nose, throat, and airway
- Removal of foreign bodies from the cornea
- Vaginal foreign body removal (via manual examination)
- Management of chemical eye injuries
- Use of the otoscope and ophthalmoscope

All procedures were performed under direct consultant-level supervision in a controlled setting using high-fidelity mannequins, in strict accordance with NHS UK curriculum standards and clinical guidelines.

Competency & Teaching Proficiency

Dr. Mukhtiar Ahmed Pathan consistently demonstrated:

- Strong theoretical and procedural knowledge
- Excellent technical and hands-on skills
- Confidence and competence across all trained procedures

He further acted as an instructor during skills workshops, actively teaching and supervising fellow colleagues.

Assessment & Documentation

Dr. Mukhtiar Ahmed Pathan has Successfully completed and submitted all required Directly Observed Procedural Skills (DOPS) forms met all prescribed learning outcomes, with documentation submitted to the institute as evidence of competency acquisition Certification

We hereby confirm that Dr. [redacted]

London GEM
Breaking Barriers in EM

London Global Emergency Medicine

To Whom It May Concern,

Subject: Confirmation of Paediatric Emergency Medicine Competencies

This letter serves to formally confirm the achievement of core Pediatric Emergency Competencies as EM Trainee at LGEM of **Dr. Mukhtiar Ahmed Pathan Candidate Number: LGEM/EM/01/008/22-24 in London Global Emergency Medicine (LGEM) – CCP Emergency Medicine (CCP-EM).**

Over a structured two-year period, Dr. Mukhtiar Ahmed Pathan engaged in a comprehensive curriculum consisting of academic lectures and supervised practical training in Paeds EM Module

. The programme ensured full coverage of all core paediatric emergency medicine competencies requisite for physician-level practice in the United Kingdom at Core Trainee level, in alignment with the curricula set forth by the Royal College of Emergency Medicine (RCEM) and the Royal College of Paediatrics and Child Health (RCPCH).

This is to confirm that Dr. Mukhtiar Ahmed Pathan attended series of lecture on Pediatric Emergency on the following topics

Management of acute paediatric presentations, encompassing respiratory, cardiovascular, nutritional, and metabolic emergencies.

Advanced Paediatric Life Support (APLS), including the management of shock and standard paediatric acute emergencies.

Paediatric endocrine emergencies, such as diabetic ketoacidosis (DKA), thyroid crises, and Addisonian crisis.

Assessment and management of common and high-risk paediatric presentations, including respiratory tract infections, stridor, wheeze, the limping child, pyrexia of unknown origin, sepsis, and serious bacterial infections.

Paediatric trauma and injury management.

Paediatric radiology and X-ray interpretation.

Fluid management and dehydration.

Infectious diseases pertinent to paediatric emergency medicine.

London GEM
Breaking Barriers in EM

London Global Emergency Medicine

To Whom It May Concern,

Subject: LGEM Anaesthetics & ICU Academic Competencies Letter of Completion

This letter formally certifies that Dr. Mukhtiar Ahmed Pathan has successfully completed two years of structured academic training in Anaesthetics and Intensive Care Medicine (ICU/ITU) as part of the LGEM CCP EM MRCEM Programme. The training was delivered in strict accordance with the LGEM curriculum and aligns with the guidelines of the Royal College of Emergency Medicine (RCEM).

Dr. Mukhtiar Ahmed Pathan attended a comprehensive series of lectures covering core anaesthetic and intensive care topics appropriate for a Core Emergency Medicine trainee. All sessions were delivered by NHS UK Consultants with recognised specialist expertise and clinical standing in Anaesthetics and Intensive Care Medicine.

The academic programme included, but was not limited to, the following competencies:

- Airway assessment and management.
- Basic and advanced airway skills, including supraglottic airway insertion and crash intubation (mannequin-based).
- Endotracheal intubation and ventilation, including difficult intubation drills.
- "Can't Intubate, Can't Ventilate" scenarios and surgical airway skills, with hands-on experience using sheep tracheas.
- Basic ventilator settings and principles of mechanical ventilation.
- Use of non-invasive ventilation (NIV) and BiPAP in the Emergency Department.
- Drug selection for induction and maintenance of anaesthesia.
- Management of the acutely unwell patient.
- Management of haemodynamically unstable patients.
- Simulation-based scenarios including septic shock, haemorrhagic shock, hypovolaemic shock, and cardiogenic shock.
- Provision of inotropic support in a simulated setting.

These competencies were taught and assessed through live lectures, face-to-face teaching, and simulation-based learning. Dr. Mukhtiar Ahmed Pathan consistently demonstrated a high standard of performance across all domains within the simulated clinical environment.

In addition, Dr. Mukhtiar Ahmed Pathan received supervised, hands-on training in ultrasound-guided central venous line and arterial line insertion under the direct supervision of NHS UK Consultants.

We have reviewed the relevant Royal College of Emergency Medicine (RCEM) Specialty Learning Outcomes (SLOs) for Anaesthetics and Intensive Care Medicine and confirm that the academic content delivered corresponds to the requirements for Primary and Intermediate levels, with practical application conducted in a clinically simulated environment.

Please note that clinical competencies in ICU and Anaesthetics require formal sign-off by a supervising Consultant Anaesthetist or Intensivist in the appropriate clinical setting. This letter serves solely to confirm that Dr. Mukhtiar Ahmed Pathan has acquired the requisite theoretical knowledge and simulated practical exposure to support his ongoing clinical practice.

This document may be submitted as supporting evidence of academic training in Anaesthetics and Intensive Care Medicine.

Yours sincerely,

Ashfaque A Sorathia

London Global Emergency Medicine

To Whom It May Concern,

Subject: Confirmation of Core Musculoskeletal Competencies for Dr. Mukhtiar Ahmed Pathan

This letter confirms that Dr. Mukhtiar Ahmed Pathan has completed the core musculoskeletal injury management curriculum as part of the two-year Global Emergency Medicine (GEM) – CCP Emergency Medicine Programme. These competencies are aligned with the requirements of the Royal College of Emergency Medicine (RCEM) curriculum.

- The training comprehensively covered the assessment and management of musculoskeletal injuries essential for an Emergency Medicine physician, including:
- Upper Limb Injuries: Shoulder reductions, grading of fractures, application of slings, management of elbow dislocations, and fractures of the distal radius.
- Splinting and Immobilisation: Practical use of various splints for fractures and dislocations within the Emergency Department.
- Fracture and Dislocation Identification: Proficiency in the radiographic and clinical identification of fractures.
- Neck and Spine Injuries: Management of cervical spine injuries, understanding clearance protocols, and identification of significant fractures.
- Hand and Foot Injuries: Management of metacarpal and phalangeal fractures, including decision-making for wound care (ring vs. glue vs. referral) and nailbed injuries.

This instruction was not only theoretical but also included supervised hands-on practice in a simulated environment, during which Dr. Mukhtiar Ahmed Pathan demonstrated proficient technique.

Documented evidence of his competency in these areas, including records of lectures attended, Case-Based Discussions (CBD), Self-Reflective Learning (SRL), and feedback, is maintained in his portfolio.

Sincerely,

Ashfaque A Sorathia

London Global Emergency Medicine

To Whom It May Concern,

Subject: Confirmation of Foundation Competencies for Dr. Mukhtiar Ahmed Pathan

This letter confirms that Dr. Mukhtiar Ahmed Pathan has successfully completed the two-year London Global Emergency Medicine (LGEM) CCP-EM MRCEM training programme. The programme comprised over 500 hours of structured teaching and training delivered by NHS UK consultants.
Throughout this period, Dr. Mukhtiar Ahmed Pathan was thoroughly assessed against the competency domains outlined in relevant professional forms, such as the CREST form. We confirm that he has achieved all the foundation-level competencies required. Our programme, which utilizes a blended online and face-to-face teaching model, maintains detailed records of every teaching session and skill assessment.
Based on our direct academic assessment and observation of his performance in simulated scenarios, we confirm the following:

- Dr. Mukhtiar Ahmed Pathan 's clinical and technical assessment places him above the expected standard for foundation-level doctors across all areas of emergency and acute presentation.
- He demonstrates a strong understanding of clinical prioritisation and formulates holistic, comprehensive management plans for patients.
- He possesses a robust understanding of the ethical and legal challenges encountered in clinical practice.
- He is an excellent clinician, a dedicated mentor, and an effective teacher, actively engaged in continuous professional development and quality improvement projects.

All competencies were taught and assessed by NHS UK consultants through online lectures, simulated case discussions, and hands-on practical workshops. Comprehensive documented evidence of Dr. Mukhtiar Ahmed Pathan 's achievement in each domain is maintained in his portfolio and is available for verification by a supervising consultant upon request.

Important Note Regarding the CREST Form:
The CREST form requires a signature from a consultant with whom the candidate has worked for a significant period. This letter and the accompanying portfolio are provided as supportive evidence of competency attainment. It is the candidate's responsibility to present this documentation to their local trainer or supervisor, who meets the specified criteria, to facilitate the final signing of the form.
We highly recommend Dr. Mukhtiar Ahmed Pathan and are confident that this documented evidence will strongly support his application.
Sincerely,

CCP Emergency Medicine Training Programme

Academic Supervisor Letter of Recommendation

I am delighted to provide this recommendation for Dr. Mukhtiar Ahmed Pathan. I have been his Academic Supervisor and Program Director at London Global Emergency Medicine since he joined in 2022, and I have closely monitored his professional and academic progression.

Dr. Mukhtiar Ahmed Pathan joined as a non-training doctor but has demonstrated exceptional commitment, rapid development, and consistent academic and clinical success. I served as his key tutor for the MRCEM examinations, providing over 40 hours of live, interactive teaching, as well as guidance in clinical reasoning and professional development. I also supported the enhancement of his communication skills, including patient interaction, multidisciplinary teamwork, and examination performance.

Clinically, Dr. Mukhtiar Ahmed Pathan is highly competent, reliable, and reflective. He engages proactively in managing acute and emergency cases, demonstrates sound judgment, and makes safe, evidence-based decisions under pressure. His communication with patients, relatives, and colleagues is clear, empathetic, and professional.

In addition to his own progression, Dr. Mukhtiar Ahmed Pathan has contributed significantly to the development of his peers, organizing and delivering teaching sessions focused on MRCEM preparation and clinical skills, demonstrating both leadership and commitment to medical education.

I am confident that Dr. Mukhtiar Ahmed Pathan possesses the skills, dedication, and professionalism required to excel in UK Emergency Medicine training and will make an outstanding future Consultant. I strongly recommend him without reservation.

Yours sincerely,

Naila Ashfaque Sorathia

London Global Emergency Medicine

To Whom It May Concern,

Subject: Confirmation of Programme Completion

This letter serves to formally confirm the successful completion of the two-year **London Global Emergency Medicine (LGEM) – CCP Emergency Medicine (CCP-EM) MRCEM Programme by Dr. Mukhtiar Ahmed Pathan.**

The comprehensive programme entailed a rigorous academic and practical curriculum, consisting of over 550 hours (250 hours live consultant led and 300 hour self-directed supervised) structured teaching delivered by specialist NHS UK consultant faculty.

Throughout the programme's duration, Dr. Mukhtiar Ahmed Pathan demonstrated exceptional commitment and professionalism. He fulfilled all mandatory completion criteria, which included:

- Satisfactory attendance at all academic and practical sessions.
- Active and interactive participation in lectures and workshops.
- Constructive engagement with and support of fellow participants.
- Timely submission of all coursework, feedback, and reflective learning documentation.
- The curriculum encompassed the following core components:

Academic Instruction: Over [redacted]dth of emergency medicine,

CCP Emergency Medicine Training Programme

Clinical Supervisor's Letter of Recommendation

It is my great pleasure to write this letter of recommendation for **Dr. Mukhtiar Ahmed Pathan**, who was enrolled in the **London Global Emergency Medicine (LGEM) CCP EM two-year training programme** from **May 2022 to April 2024**.

During his time with LGEM, Dr. Mukhtiar Ahmed Pathan demonstrated outstanding commitment, professionalism, and excellence across all domains of emergency medicine taught within the programme. His participation was exemplary, and he consistently displayed a strong work ethic, intellectual curiosity, and a deep passion for the specialty.

Dr. Mukhtiar Ahmed Pathan not only excelled academically and clinically but also emerged as a natural leader and role model. He actively motivated fellow trainees and made a significant impact on more than **400 trainees** registered within the programme, including non-doctor participants. His ability to inspire, teach, and support others was truly commendable.

He successfully completed the **100 Emergency Medicine Procedures Workshop**, developed strong competency in **emergency ultrasound**, and conducted numerous teaching sessions for trainees preparing for the **MRCEM examinations**. His dedication to teaching and mentorship reflected both maturity and a genuine commitment to emergency medicine.

In recognition of his exceptional contribution, dedication, and service, Dr. Mukhtiar Ahmed Pathan was awarded the **LGEM "Hero of Emergency Medicine" Award**, a decision that was unanimously welcomed by both faculty and trainees.

Beyond the LGEM programme, Dr. Mukhtiar Ahmed Pathan played a pivotal role in establishing and promoting emergency medicine education in **Pakistan**, where he utilised his excellent communication and organisational skills to arrange and deliver multiple workshops, seminars, and webinars. These initiatives significantly contributed to raising awareness and improving standards of emergency medicine training.

It is a matter of great pride to see Dr. Mukhtiar Ahmed Pathan progress so successfully in his career and secure a position as an **Emergency Medicine Registrar within the NHS** at a prestigious hospital in London. His journey reflects both his personal dedication and professional competence.

I have no hesitation in **strongly recommending** Dr. Mukhtiar Ahmed Pathan. I am confident that he will be a valuable asset to any organisation he joins and will continue to excel as an emergency medicine physician.
Yours sincerely,

Ashfaque A Sorathia
